January Commentary

- Inflation continues to decline and the Fed is approaching the end of rate hike cycle
 - ❖ Likely that most equity markets bottomed in October
- Portfolio is more opportunistically positioned – investment environment has improved
- Equity allocations were increased during the month and levels are above the benchmarks
 - ❖ Relative returns were helped by strong international (VXUS/HEFA) performance, while biotech (IBB) lagged
- Fixed income portfolio positioned to capitalize on attractive current yields, while still limiting interest rate sensitivity
 - ❖ New position in short-term high yield (SJNK), while bank loans (FTSL) sold
- Equity market likely to be volatile but with an upward bias

¹ The yearly awards, presented by Envestnet | PMC and Investment Advisor recognize active managers who have beaten their benchmarks, shown solid performance in general over time and are the best in their respective asset class. Eligibility requires the portfolio manager have \$200 million in assets and three years of experience. Additionally, the managers also need to be open to new investment on the Envestnet platform. Award finalists were chosen using Envestnet | PMC's proprietary, systematic, and multi-factor methodology for evaluating managers, which takes a variety of qualitative and quantitative criteria into consideration, such as investment process and style, performance, firm profile, customer service, and tax efficiency. SSI Investment Management did not pay to participate.

Compliance Statement

SSI Investment Management LLC ("SSI") claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Definition of the Firm

SSI was established in 1973 and is a Registered Investment Advisor based in Los Angeles, CA. SSI manages assets in domestic and global capital markets. SSI applies quantitative disciplines and fundamental research in its management of alternative and traditional portfolios for institutional and high net-worth investors. SSI manages separate accounts, a limited partnership, and acts as sub-advisor to mutual funds and an ETF. Effective June 1, 2019, Resolute Investment Managers, Inc. has a majority interest in SSI, however, SSI continues to operate independently. SSI does not have any subsidiaries. SSI acquired the assets of Frole, Revy Investment Co., Inc. ("Frole, Revy") and its composites as of March 1, 2009.

Policies

SSI's policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request.

The Composite & Benchmark (Description & Material Risks)

SSI's Flexible Allocation Strategy - Conservative (composite inception date August 1, 2015; composite created August 1, 2015) invests in a portfolio primarily of Exchange Traded Funds but may include Exchange Traded Notes and other Mutual Funds. The exposure to various asset classes including, but not limited to, equity, fixed income and cash may range from 0-100%. The composite name was initially known as SSI Flexible Allocation Strategy #2 from 8/1/2015 – 12/31/2020 and on 1/1/2021 the composite name became the SSI Flexible Allocation Strategy - Conservative. The composite contains fully discretionary accounts including those no longer with the firm. SSI believes a performance comparison versus the Balanced Index is appropriate. Prior to January 1st, 2021, the Balanced Index was 50% of the total return of the S&P 500 and 50% of the Bloomberg Barclays Aggregate Bond Index. Effective January 1st, 2021, the Balanced Index will be 40% of the total return of the S&P 500 and 60% of the Bloomberg Barclays Aggregate Bond Index. Portfolios in this composite may have asset allocations that are different from the allocation of the Balanced Index. These allocations may generally range from 30% equities & 70% fixed income/cash to 50% equities & 50% fixed income/cash. The volatility of this strategy may be greater than the Balanced Index due to changes in asset allocation. The return, if any, is dependent upon SSI's discretionary management. The Bloomberg Barclays Aggregate Bond Index is made up of government securities, mortgage-backed securities, asset-backed securities and corporate securities to simulate the universe of bonds in the market and the maturities of the bonds in the index are more than one year. Any other indices shown are not necessarily comparable to SSI's Flexible Allocation Strategy - Conservative. These are widely recognized market indices that are shown for informational purposes only. Investors should be aware that individuals cannot invest directly in any index, and index performance does not include transaction costs or other fees, which will affect actual investment performance. Benchmark rebalancing frequency: monthly.

Investment Management Fees

Returns are presented gross and/or net of management fee. Actual results of an individual account may be materially different from the performance shown herein because of differences in inception date, transaction and related costs, investment guideline restrictions, fees and other factors. All performance is based in U.S. dollars and reflect, on a percentage basis for each of the periods indicated: (a) the actual net increase (decrease) of all SSI Flexible Allocation Strategy - Conservative portfolios, dollar-weighted, including adjustments for unrealized gains and losses, the reinvestment of dividends and other earnings, the deduction of some investment costs, the deduction of mutual fund costs, and are time-weighted to adjust for additions and withdrawals, and (b) the net increase (decrease) of the Balanced Index.

Net performance for fee paying portfolios is reduced by SSI's actual investment management fees and non-fee paying portfolios are reduced by a 1% annual model fee (2015-2020). Model fees are deducted on a monthly basis. Gross performance does not include deduction of SSI's investment management fees.

If performance is gross of management fees, client's actual return will be reduced by the management fees and any other expenses which may be incurred in the management of an investment advisory account. See SSI's Form ADV, Part 2A for a complete description of the investment advisory fees customarily charged by SSI. As an example, an account with an initial \$1,000,000 investment on January 1, 2022, earning a recurring 5% semi-annual gross return (10.25% annualized), and paying a .5% semi-annual management fee (1% annual fee) would have grown to \$1,340,096 on a gross of fees basis and \$1,300,392 on a net of fees basis by December 31, 2024 (3 years).
